STUDENT ANSWER SHEET

1. **_____ is a data service offered by Windows Azure.** *[1 Mark(s)]*

A. SQL Database (this is the answer)
B. Multi-factor Authentication
C. Active Directory
D. Software Development Framework

2. **Azure is a product of _____.** *[1 Mark(s)]*

A. Oracle
B. Microsoft (this is the answer)
C. VMWare
D. RedHat

3. **Azure cloud services eliminate the need of server ____.** *[1 Mark(s)]*

A. installation
B. infrastructure (this is the answer)
C. implementation
D. uninstallation

4. **A feature called _____ is provided by Windows Azure that can increase or decrease the resources, based on the applications requirements ?** *[1 Mark(s)]*

A. dynamic scaling (this is the answer)
B. static scaling
C. mobile service
D. mobile computing

5. **For storage accounts created after June 8th, 2012, the total capacity is _____.** *[1 Mark(s)]*

A. 100 TB
B. 500 TB
C. 1000 TB
D. 200 TB
(this is the answer)

6. **_____ is now renamed as Windows Azure SQL Database.** *[1 Mark(s)]*

A. Microsoft SQL Azure (this is the answer)
B. Microsoft Azure
C. Oracle

D. Windows XP

7. **_____ in Windows Azure provides a very large scale hosting and processing environment for applications.** *[1 Mark(s)]*

A. Internet
B. Compute (this is the answer)
C. Storage
D. Fabric

8. **Which of the following focuses on scalable storage services such as blobs, queues, and tables?** *[1 Mark(s)]*

A. Internet
B. Compute
C. Fabric (this is the answer)
D. Storage

9. **Which of the following are different types of environments in Force.com?** *[1.5 Mark(s)]*

1. Production Environment
2. Development Environment
3. Developer Edition, Sandbox
4. Test Environments

A. 1 and 4
B. 2 and 4
C. 1, 2, and 3 (this is the answer)
D. Only 2 and 3

10. **Identify the graphical tool in Salesforce that helps you to get and extract the data from the database objects into any destination.** *[1.5 Mark(s)]*

A. Data loader (this is the answer)
B. Time loader
C. Export loader
D. Import loader

11. **Which of the following provide status information about people and important projects automatically pushed to you?** *[1.5 Mark(s)]*

1. Chatter
2. Salesforce
3. Identity Service
4. Dropbox

A. 1 and 3
B. 2 and 3
C. 1 and 2 (this is the answer)

D. 1 and 4

12. **Which of the following are three types of cloud delivery models?** *[1.5 Mark(s)]*

A. SaaS, PaaS, IaaS (this is the answer)
B. SaaS, PaaS, WaaS
C. CaaS, SaaS, IaaS
D. CaaS, SaaS, DaaS

13. **Which of the following are the examples of using Chatter service?** *[2 Mark(s)]*

1. Find hidden connections.
2. Follow sales deals.
3. Identity service.
4. Collaborate on sales presentations.

A. 1, 2, and 3
B. 2 and 3
C. 1 and 4
D. 1, 2, and 4
(this is the answer)

14. **Which of the following are the key features of Windows Azure?** *[2 Mark(s)]*

1. Virtual Machines
2. Cloud Services
3. Websites and Mobile Services
4. Marketplace

A. 1, 2, and 3 (this is the answer)
B. 3 and 4
C. 2, 3, and 4
D. 1, 2, and 4

15. **Key features of the SaaS model are _____.** *[2 Mark(s)]*

1. Multi-tenant Architecture
2. Simple Customization
3. Improved Access to Data
4. Increased Security

A. Only 1 and 2
B. Only 2 and 3
C. Only 1, 2, and 3 (this is the answer)
D. Only 1 and 4

STUDENT ANSWER SHEET

1. **_____ in Windows Azure provides a very large scale hosting and processing environment for applications.** *[1 Mark(s)]*

A. Internet
B. Compute (this is the answer)
C. Storage
D. Fabric

2. **Which of the following focuses on scalable storage services such as blobs, queues, and tables?** *[1 Mark(s)]*

A. Internet
B. Compute
C. Fabric (this is the answer)
D. Storage

3. **SQL Database does not support any type of parameters because they have dependencies on the _____.** *[1 Mark(s)]*

A. server
B. SQL server
C. logical configuration
D. physical configuration
(this is the answer)

4. **Windows Azure Queues allows messages to have a very _____ lease time.** *[1 Mark(s)]*

A. short (this is the answer)
B. medium
C. large
D. extra large

5. **Data objects in the Datastore are known as _____.** *[1 Mark(s)]*

A. entities (this is the answer)
B. keys
C. properties
D. methods

6. **XMPP stands for _____.** *[1 Mark(s)]*

A. eXtensible Messaging and Presence Protocol
(this is the answer)
B. Extensible Messaging and Presence Program
C. eXtensible Messaging and Program Protocol
D. extend Messaging and Presence Protocol

7. **A pre-loaded Python interpreter on the Google App is used to _____ the application codes entered by the User.** *[1 Mark(s)]*

A. compile
B. execute (this is the answer)
C. implement
D. test

8. **Which one of the following commands is used to upload the ready application on Google App Engine?** *[1 Mark(s)]*

A. appcfg.py.px (this is the answer)
B. appcfg.py
C. appcfg.px
D. appc.px

9. **Which of the following are different types of environments in Force.com?** *[1.5 Mark(s)]*

1. Production Environment
2. Development Environment
3. Developer Edition, Sandbox
4. Test Environments

A. 1 and 4
B. 2 and 4
C. 1, 2, and 3 (this is the answer)
D. Only 2 and 3

10. **Identify the graphical tool in Salesforce that helps you to get and extract the data from the database objects into any destination.** *[1.5 Mark(s)]*

A. Data loader (this is the answer)
B. Time loader
C. Export loader
D. Import loader

11. **Which of the following provide status information about people and important projects automatically pushed to you?** *[1.5 Mark(s)]*

1. Chatter
2. Salesforce

3. Identity Service
4. Dropbox

A. 1 and 3
B. 2 and 3
C. 1 and 2 (this is the answer)
D. 1 and 4

12. **Which of the following are three types of cloud delivery models?** *[1.5 Mark(s)]*

A. SaaS, PaaS, IaaS (this is the answer)
B. SaaS, PaaS, WaaS
C. CaaS, SaaS, IaaS
D. CaaS, SaaS, DaaS

13. **Which of the following are the examples of using Chatter service?** *[2 Mark(s)]*
1. Find hidden connections.
2. Follow sales deals.
3. Identity service.
4. Collaborate on sales presentations.

A. 1, 2, and 3
B. 2 and 3
C. 1 and 4
D. 1, 2, and 4
(this is the answer)

14. **Which of the following are the key features of Windows Azure?** *[2 Mark(s)]*

1. Virtual Machines
2. Cloud Services
3. Websites and Mobile Services
4. Marketplace

A. 1, 2, and 3 (this is the answer)
B. 3 and 4
C. 2, 3, and 4
D. 1, 2, and 4

15. **Key features of the SaaS model are _____.** *[2 Mark(s)]*
1. Multi-tenant Architecture
2. Simple Customization

3. Improved Access to Data
4. Increased Security

A. Only 1 and 2
B. Only 2 and 3
C. Only 1, 2, and 3 (this is the answer)
D. Only 1 and 4

STUDENT ANSWER SHEET

1. **_____ in Google App Engine enables applications to manipulate images easily.** *[1 Mark(s)]*

A. Memcache Service
B. Image Service (this is the answer)
C. URL Fetch Service
D. Mail Service

2. **The _____ in Google App Engine allows applications to send e-mail using the Google infrastructure.** *[1 Mark(s)]*

A. Image Service
B. URL Fetch Service
C. Memcache Service
D. Mail Service
(this is the answer)

3. **Google App offers _____ for free storage for all users beyond which if required then needs to be purchased.** *[1 Mark(s)]*

A. 2 GB
B. 3 GB
C. 1 GB (this is the answer)
D. 4 GB

4. **Cloud computing involves the delivery of _____, platforms, and infrastructure as services through the Internet or networks.** *[1 Mark(s)]*

A. software (this is the answer)
B. hardware
C. mobile computing
D. Internet

5. **In the _____, software is hosted by an Application Service Provider (ASP).** *[1 Mark(s)]*

A. IaaS delivery model
B. PaaS delivery model
C. SaaS delivery model (this is the answer)
D. Multi-tenant architecture

6. **_____ is an approach where a single instance of the software running on a server serves multiple clients or tenants.** *[1 Mark(s)]*

A. Multi-tenant Architecture (this is the answer)
B. Simple Customization
C. Improved Access to Data
D. Easy Access

7. **Customer Relationship Management offers various products in the form of _____.** *[1 Mark(s)]*

A. Business Relationship Management
B. SaaS (this is the answer)
C. PaaS
D. IaaS

8. **_____ is a framework that allows you to build user interfaces which can be hosted on Force.com.** *[1 Mark(s)]*

A. Visualforce (this is the answer)
B. Visual Basic
C. Visual Suite
D. Visual NET

9. **Which of the following formats will detailed success and error log files of Data loader in Salesforce?** *[1.5 Mark(s)]*

A. Excel Format
B. CSV Format (this is the answer)
C. PPT Format
D. DOC Format

10. **Which of the following statements is true about Multi-tenant Architecture?** *[1.5 Mark(s)]*

A. It is an approach where a single instance of the software running on a server serves multiple clients or tenants. (this is the answer)
B. Each user can customize applications without any hassles to fit their business processes without affecting the common infrastructure on the cloud.
C. SaaS applications can be easily launched through a browser.
D. SaaS provides improved access to data from any networked device.

11. **In a cloud computing environment, who is likely to maintain the storage, database, message queue, or any other middleware, and the hosting environment for virtual machines?** *[1.5 Mark(s)]*

A. Any user
B. An IaaS vendor (this is the answer)
C. A PaaS vendor
D. A SaaS vendor

12. **Utility computing is a feature of which of these cloud delivery models?** *[1.5 Mark(s)]*

A. Software as a service
B. Infrastructure as a service (this is the answer)
C. Platform as a service
D. Maintenance as a service

13. **Which of the following are the advantages of IaaS?** *[2 Mark(s)]*

1. Global Access, Retained Control, and Predictable Costs
2. No Installation, No Maintenance, and Reduced Costs
3. Privileged User Access, Regulatory Compliance, and Data Location Control
4. Simplified Deployment, Instant Scalability, and Reliability

A. Statements 1 and 2
B. Statements 1 and 4
C. Only Statement 1 (this is the answer)
D. Statements 3 and 4

STUDENT ANSWER SHEET

1. **Azure is a product of _____.** *[1 Mark(s)]*

A. Oracle
B. Microsoft (this is the answer)
C. VMWare
D. RedHat

2. **Azure cloud services eliminate the need of server ____.** *[1 Mark(s)]*

A. installation
B. infrastructure (this is the answer)
C. implementation
D. uninstallation

3. **A feature called _____ is provided by Windows Azure that can increase or decrease the resources, based on the applications requirements ?** *[1 Mark(s)]*

A. dynamic scaling (this is the answer)
B. static scaling
C. mobile service
D. mobile computing

4. **For storage accounts created after June 8th, 2012, the total capacity is _____.** *[1 Mark(s)]*

A. 100 TB
B. 500 TB
C. 1000 TB
D. 200 TB
(this is the answer)

5. **_____ is now renamed as Windows Azure SQL Database.** *[1 Mark(s)]*

A. Microsoft SQL Azure (this is the answer)
B. Microsoft Azure
C. Oracle
D. Windows XP

6. **_____ in Windows Azure provides a very large scale hosting and processing environment for applications.** *[1 Mark(s)]*

A. Internet
B. Compute (this is the answer)
C. Storage

D. Fabric

7. **Which of the following focuses on scalable storage services such as blobs, queues, and tables?** *[1 Mark(s)]*

A. Internet
B. Compute
C. Fabric (this is the answer)
D. Storage

8. **SQL Database does not support any type of parameters because they have dependencies on the _____.** *[1 Mark(s)]*

A. server
B. SQL server
C. logical configuration
D. physical configuration
(this is the answer)

9. **Which of the following features of IaaS makes the provision of desktops over the network possible?** *[1.5 Mark(s)]*

A. Internet connectivity
B. Desktop virtualization (this is the answer)
C. Dynamic scaling
D. Utility computing

10. **Which of the following is not used to access the environment in Force.com?** *[1.5 Mark(s)]*

A. SOAP API
B. IDE
C. Data Loader (this is the answer)
D. Metadata API

11. **Which of the following ensures that an application will have limited access to operating system resources?** *[1.5 Mark(s)]*

A. Web Server Gateway Interface
B. Google App Engine
C. Sandbox Application (this is the answer)
D. Programming Interface

12. **Which of the following are not advantages of SaaS?** *[1.5 Mark(s)]*

1. No Installation
2. No Maintenance

3. Reduced Costs
4. Powerful and Reliable Internet Connection Required

A. Statement 1
B. Statement 2
C. Statement 3
D. Statement 4
(this is the answer)

13. **Which of the following features is true about IaaS?** *[2 Mark(s)]*
1. System administrative tasks such as resource allocation, server provision, and so on, have to be done in the traditional way
2. Cloud resources cannot be scaled up and down based on demand
3. Utility computing model enables one to pay only for what they use
4. Resource consumption by users cannot be monitored and controlled

A. Statement 1
B. Statement 2
C. Statement 3 (this is the answer)
D. Statement 4

14. **Which of the following protocols allow Web applications to communicate and exchange information using a standard approach?** *[2 Mark(s)]*
1. SOAP
2. REST
3. HTTPS
4. HTTP

A. 1 and 2 (this is the answer)
B. 2 and 3
C. 3 and 4
D. 1 and 4

15. **Which of the following statements are true?** *[2 Mark(s)]*
1. Cloud providers should ensure security for customer's data.
2. Most service vendors do not undergo security audits to get certificates.
3. Consumers can know where their data is hosted.
4. Internet connectivity is a major requirement for cloud access.

A. Statements 1 and 4
B. Statements 2 and 4
C. Statements 1, 2, and 4
D. Statements 1, 2, and 3
